Tim,

Some editorial in redline. Some edits at the end Ex. 5 Deliberative Process (DP) hopefully my edits have clarified, and not gotten it wrong.

Bruce Rodan  
Associate Director for Science  
EPA Office of Research and Development

**Subject:** Report on PFAS Air Emissions from Sintering Process

Bruce –

I am sending this email to let you know that we are planning to send the attached report to the NYDEC first thing next week. This report is in response to a request for technical assistance with the analyses of PFAS emissions to the air from a sintering process at an industrial site in Hoosick Falls, NY. The attached report provides data without interpretation of results. The results themselves are all qualitative, as this represents some of initial methods development work for PFAS air emissions. Please let me know if you have any questions or if you would like to discuss.

Tim Watkins  
Director  
Center for Environmental Measurement and Modeling  
Office of Research and Development, USEPA
